# Financial Highlights

- Cancellations and postponements of filming work and a decrease in advertising demand resulted in significant decline in net sales and losses were recorded for each profit measure.
- We recorded ¥311 million in extraordinary loss after relocating seven offices and reducing floor space in pursuit of cost reduction measures implemented ahead of the schedule developed in August.

# Trend of Net Sales by Quarter

Sales continued to be sluggish through Q3, mainly due to a significant drop in Q2 order backlog stemming from suspended economic activities under the state of emergency declaration and uncertainty about the future.

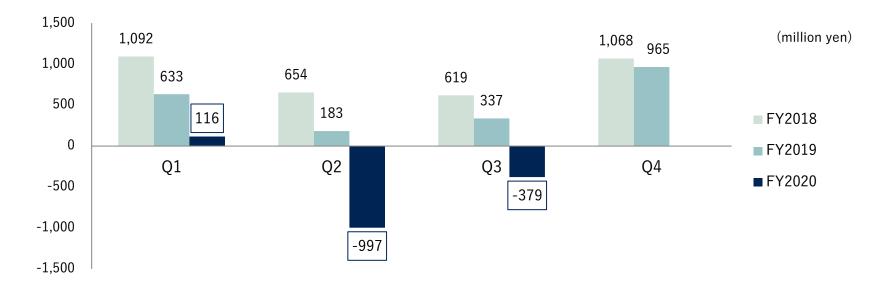

# Order Intake and Order Backlog by Quarter

■ As economic activity resumed gradually after the lifting of the state of emergency declaration, Q3 order backlog began to increase, amounting to ¥15,399 million as of the end of Q3 (up 6.4% year on year).

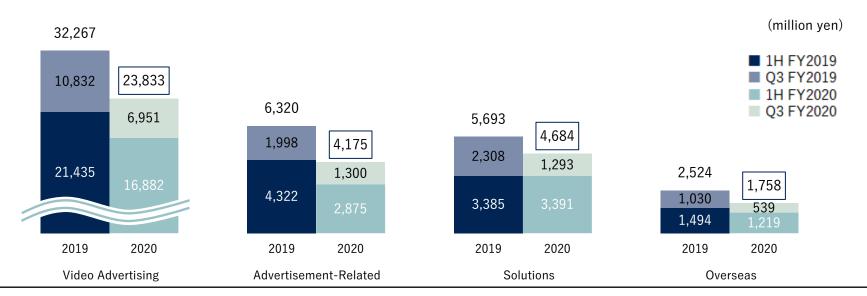

# Trends of Operating Income by Quarter

Although we recorded a net operating loss for Q3 due to lower sales, we reduced the size of the loss compared to Q2 through cost reductions ahead of schedule and improved effective profit margin.

# Net Sales by Business Segment

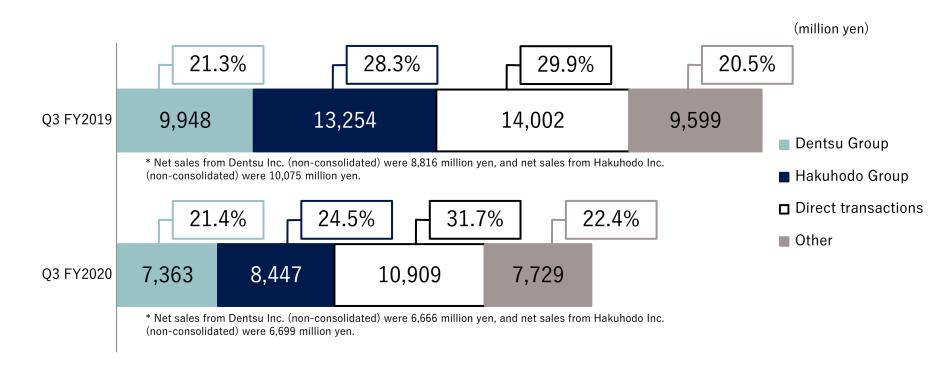

- Video Advertising Business recorded lower sales from major advertising agencies.
- Advertisement-Related Business continued to see cancellations and postponements of events.
- Solutions Business, which performed roughly level year on year through Q2, recorded lower Q3 results due to voluntary restraints on in-person sales activities during the state of emergency.

# Video Advertising Business

- Effective profit margin rose significantly, due in part to decreased cost billings for projects that had been canceled or postponed due to the impact of COVID-19.
- Orders heading into Q4 are increasing, leading us to expect a recovery in sales.

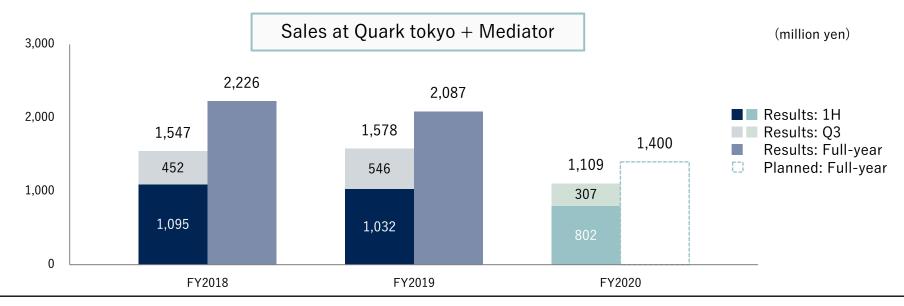

# Solutions Business (1) - TYO Offering Management Business Unit

The impact of Q2 voluntary restraints on face-to-face sales activities contributed to lower Q3 sales; however, the resumption of sales activities have resulted in strong Q4 orders, leading to expectations for sales that outperform the revised plan.

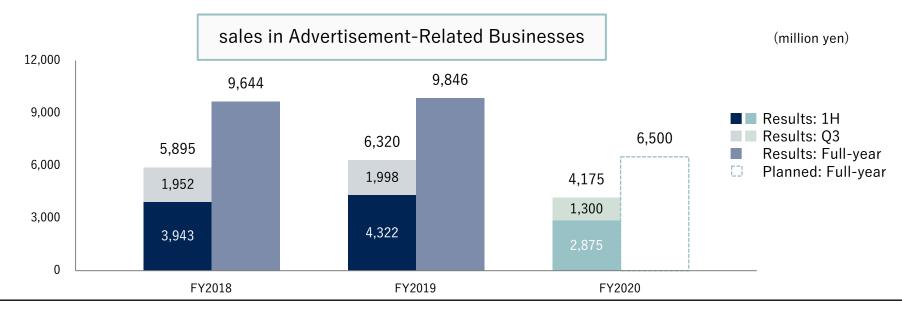

# Solutions Business (2) - Quark tokyo + Mediator

■ Despite the impact of advertiser budget cuts, orders began to return in Q3, and we also expect to book sales for major projects in Q4, projecting Q4 performance to outperform revised plan.

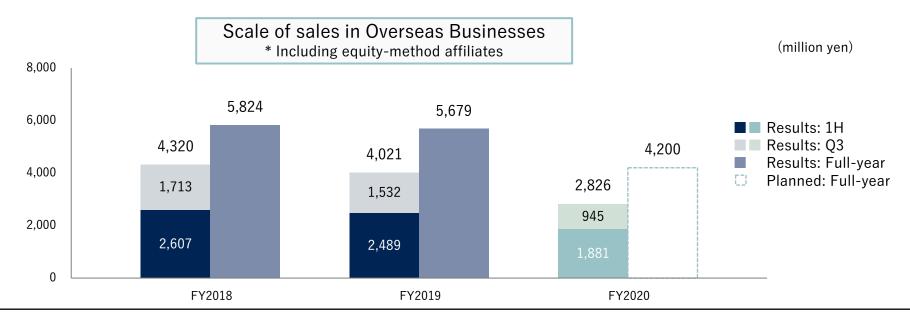

## Advertisement-Related Business

- While Q3 continued to experience the negative impact of event cancellations and postponements, we received orders for major live events in Q4.
- Hybrid online/live events are becoming a new mainstream format and driving our customer base expansion.

#### **Overseas Business**

The spread of COVID-19 has not resolved in certain areas of Southeast Asia, resulting in a continued negative impact on sales.
